

## **PAUTHO VISION FOR WOMEN EMPOWERMENT**

**(VIWE)UGANDA LTD**

### **JUNE REPORT**

This report gives a summary of activities that transpired during the month of June.

#### **Activities;**

##### **Loan disbursement.**

We are glad to inform you that loan disbursement was a success since it's the main activity in this project. Loans were successful given to KWAYA members since they are our old clients/beneficiaries as you will see from our loan portfolio list. Despite the fact that there was a corona virus pandemic our clients never stopped applying for loans since they are in the village and they seem not to have been affected that much.

##### **Loan recoveries.**

Am happy to inform you that our loan recoveries have been good, despite the ongoing pandemic. Some members willingly paid their loan dues even without a reminder or follow up. This keeps me hopeful that at least I have laid a better foundation whereby members can work without being reminded or being pushed or followed up.

##### **Project assessment/ monitoring and evaluation.**

Following the government directives, I wish to inform you that I never sat down as we have been encouraged to learn how to live with the virus and work has to continue. I was able to reach 2-3 homes in this month just to check on how they were managing their projects in this pandemic and also encouraged them to wash hands and keep safe and clean. The results of the

projects were really pleasing. So I wish to tell you that some of our dear clients/ beneficiaries have not rested as they are continuously running their well in this pandemic.

**Assessing members for loans.**

Many groups were assessed and for this month the only group which succeeded in getting loans was the KWAYA groups since it has all the qualifications. Other groups of women were requested to first register at the sub-county level and attain a certificate as one of the requirements of receiving PAUTHO loans.

**Savings.**

Despite the covid 19 pandemic, I also wish to bring to your notice that saving has been on in large numbers following government directives, whoever member who comes around on Friday would save and leave so that we don't have any crowds anywhere. I also wish to inform you that since we educated members to save with a goal and many save without being pushed and without being reminded, which is a good indicator of economic growth.

**Conclusion.**

In this crisis many organizations and individual businesses have been affected so much, so I bring my sincere appreciation to the Germany team for your continuous support to us even when we worked less. Thank you very much. May you be richly blessed.
