

JANUARY REPORT

2021

INTRODUCTION

This report gives a more details of the activities that transpired during this month.

Activities

Here are some of the activities that were carried out during the month of January, which include;

ASSESSMENT OF MEMBERS FOR LOANS

We are here to let you know that we moved around to assess some our members who are running different projects since we had start a new year. The results are impressive as we noticed that most of our clients are committed to what they are doing and since some of them have dreams to fulfill.

PROJECT ASSESSMENT

We also went ahead and assessed more new members from different parishes that is to say Bumaena parish and Isango parish. The whole process was successful and we have discovered that they are ready to work with us and we believe this will help them to change their lives from where they are right now to another better life.

LOANS RECOVERIES

We had individuals from KWAYA who made recoveries and we are so glad to tell you that the groups which had their date of returning the money in January did it

accordingly by complying with their appointed date which is a very good impression. To those few who have to be reminded, we had to do so by looking for some of them up to their homes and they have promised us different dates according to each individual or member and we can let you know that come that date, we shall check on them in case they don't call us

LOAN DISBURSMENT

We are so glad to inform you that we had different groups from different parishes qualifying to get loans from us and since the month of January had come to an end, we had to push them to the next month just because it was a Sunday. We want to let you know that one staff member got a loan as you will observe from the list.

SAVINGS

We would like to let you know that members have started saving seriously since everyone got what he/she had saved last year and this has impressed many leading to more new members joining the saving group.

CHALLENGES

We have gotten a challenge of communication since we have to communicate to our members throughout and sometimes they also have to make calls to us, so they don't have a specific number to call on since we have been giving them our numbers that's for Pauline, Doreen and Elli and you find that these are personal numbers and some of them are already loaded.

WAYFORWARD

We as workers of PAUTHO VISION FOR WOMEN EMPOWERMENT UGANDA LTD suggest that if possible you can buy us one phone purposely for PAUTHO work in order to ease the communication and we will buy two lines in it that is MTN and Airtel because some clients have no airtime, so they just pep and we always call back to find out the reasons as to why they called.

CONCLUSION

We would like to send our greetings and sincere thanks to our funders that thanks so much for loving PAUTHO VISION FOR WOMEN EMPOWERMENT (VIWE)

UGANDA LIMITED. Our prayer is that let God bless you abundantly and grant you good health for the betterment of the organization
