

PAUTHO VISION FOR WOMEN EMPOWERMENT

(VIWE) UGANDA LTD

MAY REPORT

2021

INTRODUCTION

This report gives a brief background of the activities that transpired during the month of May.

ACTIVITIES

We had a number of several activities that were done during the month of May.

VALIDATION AND ASSESSMENT OF GROUPS

We would like to let you know that we have extended more on guiding and teaching more women from another new parish found in Bukhiende sub-county on how they can benefit from the micro credit project offered by PAUTHO VISION FOR WOMEN EMPOWERMENT (VIWE) UGANDA LTD.

Community members who are our beneficiaries participate in different activities (projects) that's to say tailoring, growing vegetables, selling of produce, baking and to mention but a few.

We have noticed that most of the projects run by our beneficiaries are doing well showing that there is an improvement in what they do and it also indicates that there's growth in income which will lead to a better livelihood and for the community at large.

We have to let you know this that they are so cooperative in their groups which has made more community members to get interested in getting this soft loan from the organization leading to rise in the number of groups yearning to join and become beneficiaries too.

LOAN DISBURSMENT

We are glad to tell you that during this month most of the members who had cleared the previous soft loans were in position to access new soft loans as you will see on the attached lists. More new groups from Bumutsopa parish too accessed soft loans because they had all the qualifications we need as an organization and also depending on the skills given to them which we believe will help change their livelihood and for the community around them.

We had a few staff members from Kwa Moyo who applied for the loans and accessed them as you will observe on the attached list.

LOAN RECOVERY

We are glad to share with you how our members (beneficiaries) cooperated in bringing back the soft loans, most of the individuals are so cooperative in their small groups in terms of bringing back the soft loans since it's a revolving fund and it has made it easy for us to recover back all the amount taken as a soft loan due to the grace period given to them.

SAVINGS

We have gone ahead on encouraging our members to form saving groups at village level which will help them learn more about saving for the future not spending all the profit gotten and we believe this will reduce on borrowing and debts.

CONCLUSION

We send our sincere thanks to you the funders for the good heart and love you showed to the women here in Uganda and this makes our organization's mission, vision and objectives to come true and we pray that may you be blessed abundantly.
