

## **PAUTHO VISION FOR WOMEN EMPOWERMENT**

**(VIWE) UGANDA LTD**

**AUGUST REPORT,**

**2021**

### **Introduction**

This report gives the details of the activities carried out in the month of the August, 2021 and are as follows;

### **Monitoring /Assessment of Projects**

We are very much pleased to report to the team that during the month of August, with the accompaniment of Thomas, we moved and assessed a number of beneficiary groups and individuals and our observations are as follow;

The beneficiary members run a number of business projects such as, fish mongering, selling vegetables poultry farming, piggery, bricklaying, tailoring, local brewing, hawking of second hand clothes and shoes and many others and this is leading to a gradual improvement in their household income hence improving their standards of living.

Khaita Gloria and Lunyolo Rosemary are our beneficiaries from Kyemula Business women group in Isango parish, they are the testimonies of our soft loans. They were able to make the best out of PAUTHO loans since it is almost interest free and it's mode of repaying is very conducive for them to recover. At the time we started working with Gloria, she was staying in a small two roomed semi-permanent house. She started a business of selling green vegetables as well as horticulture while Lunyolo Rosemary ventured in produce business that is to say selling

and buying of maize and beans from the first loan they got. At the time of the visit, Gloria has constructed a permanent house from the profits she made. Rosemary was upgrading from her semi-permanent to permanent house.

Nandutu Sarah from Mausi Rula and work development group and Nambuya Alice Bumaena byosi binyalikha development association in Bumena parish, after both getting their first soft loan, they jointly opened up a tailoring shop in Mausi village and they are making profits. They say they had never before got such loans, it is a grant not a loan according to them.

More other members are willing to get on board to apply for soft loans from our organization since it is really impacting very many lives in the community.

### **Loan Recoveries**

We were able to recover some good amount of money from our members/groups at their willingness to repay and also apply for another loan. We gladly report to the team that our beneficiary clients are very cooperative in recovering their soft loans from our organization amidst this hard situation of lockdown.

### **Loan Disbursement**

In the month of August, we were able to disburse some amount of money to some of the groups like Shaala women sikhana and savings group, Watsombe women`s, Mausi joint women group, Bunalwele B tubana farmers` group, Bumakika yetana farmers`group, Nabikhoso “A” work with a goal development association e.t.c and individuals that applied as per the list attached. Our loans are given out to only registered groups with a certificate of registration from the sub county, and we do believe that according to the sensitization we extended to different groups on how best to use this revolving fund, they will ably use the funds appropriately.

### **Conclusion**

In conclusion, we greatly thank all the team members most especially Buch Aktion for your enormous support towards the organization to ensure that we reach our set objective of improving the livelihood for the vulnerable families through extending soft loans to them. Indeed, there is new hope among these beneficiary families.
