

PAUTHO VISION FOR WOMEN EMPOWERMENT

(VIWE) UGANDA LTD

JULY REPORT,

2021

Introduction

This report explains the activities that occurred in the month of the July, 2021 and these include the following;

Monitoring /Assessment of Projects

We are very glad to report to the team that in the month July 2021, we moved in the community and visited a number of groups and individuals and we observed the following;

The beneficiary members run a number of activities such as poultry farming, piggery, fish mongering, selling vegetables, bricklaying, tailoring, local brewing, hawking of second hand clothes and shoes and many others. There is an improvement in their household income hence improving their standards of living.

Namakoye Beatrice is one of our beneficiaries from Kyemula women business group in Isango parish has praised our soft loans as being the best ever in her life. She was able to make profits out of PAUTHO soft loans since it is almost interest free and it's mode of repaying is very conducive to recover. She started making madazi with the first soft loan she got and later ventured into produce business (dealing in buying and selling of Pigeon peas, maize and beans) and she is doing well.

After seeing the progress of our beneficiaries, many other members are willing to get on board to apply for soft loans from our organization since it is really impacting very many lives in the community.

Loan Recoveries

We would like to report to the team that our beneficiary groups and individuals are very cooperative in recovering their soft loans from our organization amidst the lockdown. We were able to recover some good amount of money in this month from our clients at their willingness to payback and also apply for another new soft loan.

Loan Disbursement

We were able to disburse some amount of money to some of the groups and individual staff from Kwa moyo who had applied for soft loans from our organization as per the list attached. Loans were given out to only registered groups with a certificate of registration from the sub county, and we hope that according to the sensitization we extended to different groups on how best to use this revolving fund, they will ably use the funds well.

Office space

With great pleasure, we report to the team that we were able to get a coordinating place for PAUTHO VISION FOR WOMEN EMPOWERMENT (VIWE) UGANDA LTD in Mukanga cell, Bukasakya ward in Industrial Division, Mbale city. The office is fully equipped with all the furniture plus all the needed equipments and functional, as the staff of PAUTHO we are really grateful for this achievement.

Conclusion

In conclusion therefore, we would like to thank all the team members most especially Buch Aktion for their continuous support towards the organization to ensure that we meet our set target of improving the standards of living for vulnerable families through extending soft loans to them. Indeed there is now hope among these beneficiary families.
