(VIWE) UGANDA LTD

REPORT FOR NOVEMBER,

2021

Introduction

This report represents the details of the activities that were carried out in the month of November and these include;

Monitoring and Assessment of Beneficiary Projects

We are pleased to report that in this month we visited many of our beneficiary groups and assessed the progress of their projects and we noticed the following;

Our group members are involved in a number of business activities as indicated in the previous reports and indeed, there is an observable improvement in household income of our members hence improving standards of living.

We have also observed unity, teamwork and good social interaction amongst our beneficiaries and some of the members come together and do group savings hence helping one another in need and carrying out joint businesses from the soft loans they get from our organization. For example; Bumaliro Bumayi Yetana Farmer's and savings Group from Bungwanyi parish have planted almost two (2) acres of cassava and soya beans.

More other new groups are always asking to be considered so that they can be able to apply for soft loans from our organization since it has led to a positive change to many lives in the community of Bukiende.

Loan Recoveries

In November, we recovered a good amount of money from our beneficiaries at their willingness to repay so that they can be able to access more soft loans especially those who had completed servicing their loans. Our beneficiaries are very hardworking and cooperative, and this has made our work easy and convenient as members are able to pay their loans on time without pressure

Loan Disbursement

We were able to give out loans to some of the groups like Kyemula Solanisa Butambi Bamayi Group, Nabikhoso “B” Kyelama Fuba Urambe group, Ikyenga Tubana Women group and among others that applied as reflected on the attached list. Despite the fact that the funds are not enough compared to the demand, we try our best to see that most of the needy families benefit from the little available to achieve our goals and objectives. We are happy that our members are following the guidelines extended to them on how best they can use their soft loans,

Conclusion

In summary, we appreciate the team for its continued support towards the organization to enable us to reach our set objective of improving the wellbeing of vulnerable mothers through extending soft loans to them.
