

## **PAUTHO VISION FOR WOMEN EMPOWERMENT**

### **(VIWE) UGANDA LTD**

**JANUARY, 2022**

### **REPORT**

#### **Introduction**

This report gives a summary of the activities that transpired during the month of January, 2022.

#### **Activities**

##### **Monitoring / assessment of Business Projects**

In January, we monitored some of the group activities and individuals, and here are the few highlights;

Some members come together and carry out savings and credit, others do pooling (grouping together of various resources and give to a certain member) among themselves. This is also boasting their business projects.

Some members have abandoned other financial institutions like Brac, The Hunger Project Uganda, banks among others that have been offering them financial loans with high interests and opted for our soft loans since it is almost interest free and very convenient to recover.

Our members' projects are progressing steadily. Some of them are upgrading their residential houses from semi-permanent to permanent one i.e Kitongo Beatrice from Buyaka 'B' bamayi rula mwifumbiro in Bungwanyi parish and another member Lunyolo Juliet from Shikoye Isango group are constructing their permanent houses from our loans as they attributed.

There are also several new groups that are always showing interest to be considered and access our loans but they still on hold because of inadequate funds.

### **Loan Recoveries**

We humbly report that our clients are very hardworking and co-operative in remitting their soft loans to the organization. Amidst other financial needs like school fees, we were able to recover the money which was leant out to our beneficiaries from them.

### **Loan Disbursement**

We started the year by disbursing some amount of money to around seven (07) groups that applied after clearing their previous loans in December and these include Ikyenga women group, Mausi Joint women group, Bumaliro Bamayi Yetana Farmers and savings group and among others and we are very hopeful that they will be able invest their money appropriately basing on our supervision and the guidance we extend to them.

### **Conclusion**

Reaching communities is our passion; we greatly express our sincere thanks to our dear funders for their enormous and continued support towards the sustainability of the organization.
