

**PAUTHO VISION FOR WOMEN EMPOWERMENT**  
**(VIWE) UGANDA LTD**  
**REPORT FOR AUGUST, 2023**

**Introduction**

This report presents the detailed activities that transpired in the month of August, 2023 and this include the following;

**Activities**

**Monitoring and assessment of projects**

With great honor, we report to our noble team that in the month of August, 2023, we were able to visit a number of our beneficiary groups and individuals in the community before 20th and here are the observations.

Our beneficiaries are involved in a number of activities such as horticulture, poultry farming, piggery, fish mongering, selling vegetables, bricklaying, tailoring, local brewing, hawking of second hand clothes and shoes, ripe bananas, small restaurants, retail shops and many others and their involvement has led to improvement of household income hence improvement of their standards of living and as they service their soft loans too.

Members are able to make profits out of PAUTHO soft loans since it is almost interest free and the mode of repayment is very conducive to recover compared to other credit institutions. Our soft loans are said to be almost interest free to our beneficiaries as they have been facing

challenges from different financial institutions as they needed funds which could help them change their livelihood.

As most of our beneficiaries are testifying the goodness of Pautho vision as an organization, in general houses have been raised, others completed, children's fees have been paid through profits made and their ways of living have been changed because of our soft loans that are being given to those who qualify

### **Loan Recoveries**

Most of the beneficiaries made their payments as per the appointment dates and a few groups and individuals did the same though their groups and some individuals who need to be pushed in order for us to recover the money back which we did. We since some women need to be pushed out of their comfort zones. This being our major activity, we are here to let our team know that some amount of money was given to individuals and groups that have shown interest and these include Kwa Moyo staff and women groups.

### **Introduction of new App**

We would like to report that Pautho as an organization is based research and innovation of ideas and in this case there was an introduction of the new app which is called CLICKUP app and in this app an employee is in position to monitor his/her daily activities, track time and also be in position to communicate with the Employers on daily basis through comments made at the end of every task.

As a team in Uganda we would like to say thank you for this idea as it has pushed as extra mile in our day to today daily activities of the organization as we serve.

### **Conclusion**

We do express our sincere gratitude to our donors from Germany for their continued support and love towards Pautho as an organization and to the beneficiary women at large.
