

**PAUTHO VISION FOR WOMEN EMPOWERMENT  
(VIWE) UGANDA LTD  
JULY, 2023  
REPORT**

**Introduction**

This report comprises of the general activities that transpired in the month of July, 2023.

**Activities**

**Monitoring and assessment of business projects**

To ascertain the impact of our organization to the community, we visited different individuals and group projects of our beneficiary members both new and old such as, Shikoye women group, Bunalwele Tubana farmers group, Nabikhoso 'B', Nyondo Tubana, Nyondo Ambanilakho women group, Shaala Sikhana women Group, Bumaliro women group, Bufukhula Ramba Shifubi women group, Shitulwa Iyambilamo women group, Fuumu Tubana women group, and among others.

**Findings**

It was found out that some beneficiaries are hardworking with good working relationship hence good results.

Some group members do joint business, others come together and share the challenges faced in their projects and this is a sign of co-operation and unity among themselves.

It's discovered that PAUTHO loans are transforming community into financial independence since they are almost interest free through empowering vulnerable women with business skills and soft loans. And this is leading to improving household incomes.

There is social networking as members meet and do savings and credit. And this has bridged information flow gap.

We also extended our awareness/trainings to other new groups in Nyondo and Nabumali TC by sensitizing vulnerable women and they have already formed groups, just waiting for our consideration.

### **Loan Recoveries**

We would like to write again to our noble funding team that amidst the financial constraints, our members tried hard by working together in their various groups to make sure that they remit their soft loans on time and as agreed in repayment scheduled as reflected on the attached list. Though there are few groups like Bushangi Traders, Buyaka 'A' and some few others which are not paying back on time but we have promised to do the needful and threatened to report them to police if they do not clear up their soft loans and if possible, dismiss them since they are not cooperating.

### **Loan Disbursement**

Loans were given out to both individual staffs of KWA MOYO and groups like Kitindya Yetana women group, Bukhamunyu Iyuga Imbola, Shikundu Ambalakho women group, Kyemula Business women's group and among others.

### **Challenge**

Ever since we separated from moving together in the field, we are always hiring another motorcycle which is very expensive and risky which affects our day-to-day activities.

### **Conclusion**

In conclusion, the organization's scope of service is widening almost every month and we do attribute all these success to our noble team for their hearty and tireless support towards the sustainability of PAUTHO organization as the welfare of vulnerable women in the communities are improving.
