

PAUTHO VISION FOR

WOMEN EMPOWERMENT

(VIWE) UGANDA LTD

JUNE, 2023

REPORT

Introduction

Our report focuses on the general activities that were carry out in the month of June, 2023.

Activities

Monitoring of projects

Monitoring of group projects being our daily routine, we therefore checked on some of the groups and individual projects in the areas of Bukiende, Nyondo and Nabumali and we discovered that there is steady progress of livelihoods and improving standards of living among some of the members.

Members run a number of small businesses ranging from; horticulture, retail shops, baking madazi, vegetable selling, small restaurants, stalls, piggery, produce, poultry, local brewing, bars, and among others and they are making a difference in their lives. For instance, Mutuwa Sharon from Nyondo Rambila Atwela women group in Nyondo Sub County was boosted with PAUTHO loan in baking and selling of Madazi and selling of shoes and her business is thriving. Namwaki Losila Wabuyi from the same group deals in tailoring and do praise our organizational loan for being a good boost in her business. Due to financial support we are always extending to women in the communities, Nambuya Alice from Bumaena Byosi Binyalikha testifies that PAUTHO loans enabled her to educate her daughter who graduated with diploma in Nursing and midwifery.

Since our beneficiary women are now engaged in various Income Generating Activities and creating employment to other community members, economic violence and dependence/domestic violence are minimized and they are living a happier life in their families.

Loan Recoveries

We report to our esteemed team that most of our beneficiaries cooperates well by repaying their soft loans to the organization amidst other financial needs, and we were able to recover some good amount of money as per the attached list. However, some few groups like Bushangi Traders Group, Ikyenga Tubana, Wapondo Tsowatsona, their loans are long overdue and we have done all efforts to recover but we are not successful yet and finally we are engaging police.

Loan disbursement

We are here to inform the beloved team that some amount of money were given out to groups such as; Bunalwele 'B' Tubana farmers' group, Nyondo Ambanilakho women, Nyondo Khakakho, Shaala Sikhana Kwa moyo staffs and among others as reflected.

Conclusion

We attribute PAUTHO successes to our dear funders for their hearty and tireless support towards the sustainability of the organization as it is impacting the livelihood of the vulnerable women in the community.
