

PAUTHO VISION FOR WOMEN EMPOWERMENT

(VIWE) UGANDA LTD

REPORT FEBUARY 2024

Introduction;

This report consists the general of activities that transpired in the month of February, 2024 and these include;

Projects Assessment and Monitoring

Though the loans have been put on hold for a while, members still run their projects that were helping them to generate small income for sustaining their lives. This activity is done when we are collecting recoveries from members and for those who still need more soft loans to add in their projects because it had really helpt them in boosting their businesses and they suggest that as we demand those with open loans, we consider those who cleared and we can also terminate those who disturb in paying back their soft loans or introduce individual loans in case we start giving out loans again because there are some people who are capeable of paying in time .

Loan recoveries

With great pleasure we would like to report that the recoveries were made, some groups completed their loan balance like Ikenga Women Group, we have gone ahead to involve the laywer and some group members she gave demand notices have responded positively like those of Shikundu women Group,

Butsesooli Savings and Credit women Group and Nashilulu Women Group. And those who have not paid their loan balances, the lawyer is going to take them to court such that they clear their loan balances.

Loan disbursement

This was done only to the staff of Kwa Moyo and Pautho.

Challenge

it was hard to find some group members in their homes while working with the lawyer and took us time to explain and convince those with loan balances to sign the papers when giving demand notices because they got scared and worried when they heard what is going to happen in case of failure to pay the money in time.

Conclusion

We deeply express our sincerest appreciation to our dear funders for their enormous and tireless support rendered towards the sustainability of the Organisation through meeting its set objectives of empowering vulnerable women in the community.
