

PAUTHO VISION FOR WOMEN EMPOWERMENT

(VIWE) UGANDA LTD

JULY REPORT 2024

Introduction;

The report I am presenting to you contains a summary of activities that were carried out.

Monitoring of projects

I moved to some of our beneficiary groups to assess their progress and here I inform you that their businesses are progressing for example Manakhe Lydia of bushangi traders women group selling produce and carrying out farming has thanked Pautho so much because it has helped her to boost the business and kitunyi Robbinah of Kitindya yetana women group operating a shop has registered a steady progress of her business.

Loan recoveries

I take this pleasure to report that our beneficiaries are very co-operative in remitting their soft loans.

Loan disbursement

Loans was given to Kwa moyo staff members

Challenges

There has been a delay to the groups which were summoned and never turned up in paying Pautho money back and to appear in courts of law because our lawyer applied for judgments in Court and the judge will come back towards the end of August this year.

Way forward

The judgments applied by our Lawyer will be ready when the judge is back.

Conclusion

We express our sincere appreciation to our team for their continuous funding in order to see that our organization meets its set objectives of upholding wellbeing of vulnerable women in the communities of Bukende Sub County and later the country at large.
