

PAUTHO VISION FOR WOMEN EMPOWERMENT
(VIWE) UGANDA LTD
AUGUST REPORT, 2024

Introduction;

This report consists the general of activities that transpired in the month of August, 2024

Projects Assessment and Monitoring

New application forms and repayment schedules have been introduced to better identify and verify the people who want a loan.

New borrowers were checked with regard to their place of residence, their projects, their financial capacity and their reliability.

Loan recoveries

The vast majority of recoveries were successful.

Loan disbursement

Many loans were disbursed to Kwa moyo employees and some new individuals.

Challenges

Repayment of some loans is slow, so our lawyer took the matter to court again.

Other

We have determined that we need a trading license. This was applied for by us and issued directly.

Our PAUTHO motorcycle was rented to a teacher from Kwa Moyo.

Another motorcycle was purchased and also rented out. The income is used to finance further microcredit loans.

Conclusion

I deeply express our sincerest appreciation to our dear funders for their enormous and tireless support rendered towards the sustainability of the Organization through meeting its set objectives of empowering vulnerable women in the community.
