

PAUTHO VISION FOR WOMEN EMPOWERMENT

(VIWE) UGANDA LTD

REPORT NOVEMBER 2024

Introduction

This report consists the general of activities that transpired in the month of November, 2024

Projects Assessment and Monitoring

Group members and individual members carry out different businesses in the communities like selling choarcoal, making local brewing , selling madazes and selling clothes from market to market and with that has helped to improve their standards of living.

Loan recoveries

The recoveries were successful just a part from a few who default but pay in the next instalment the balances which remains

Loan disbursement

This was done to Kwamoyo Staff, Pautho Staff , groups and individual members in the communities

Challenge

We have many group members and individual members who have applied for loans but we find it hard that we do not have enough funds to give them.

Suggestions

We need more capital in the organisation and we the pautho staff on ground will make sure the loans being given out are recovered

Conclusion

We deeply express our sincerest appreciation to our dear funders for their enormous and tireless support rendered towards the sustainability of the Organisation through meeting its set objectives of empowering vulnerable women in the community
