

## **PAUTHO VISION FOR WOMEN EMPOWERMENT**

**(VIWE) UGANDA LTD**

**REPORT DECEMBER 2024**

### **Introduction**

This is a summary of activities that were carried out in the 2024. As a team, we present this report that includes all the achievements and challenges we encountered and the recommendations.

### **Achievements**

- Firstly, we managed to resume with the normal activities for PAUTHO.
- We also happened to revisit all our beneficiary groups and individuals in all parishes and the following were the observations;
  - i. There was steady progress in businesses of some of the beneficiary members in the areas we have reached.
  - ii. We discovered that there was team work amongst some of the beneficiary members. This was evidenced by joint running of projects by the members, for example the Shiyatsa Baliatwela women group and

Nasasa Bamayi Sisimukha women group who deal in joint Tailoring project.

- The organization also recruited one more staff member which has reduced on the workload.
- There was an improvement in the rate of loan recoveries.

### **Loan Recoveries**

The general loan recovery process was successful compared to the previous year as proved by all the community members, Kwamoyo and PAUTHO staff paying back their loans as agreed.

### **Loan Disbursement**

Loan disbursement being our major goal, we were able to give some good amount of money to PAUTHO staff, Kwa Moyo staff old groups and individuals in the community. For example Shiyatsa Baliatwela women group, Nasasa Bamayi Sisimukha women group, Nabumali Fukilisa and etc.

### **Challenges.**

- Transport was the major challenge as its costly reaching all these groups and individuals within the coverage areas.
- The laptop is also very slow due to hard drive challenges which makes it freeze hence slowing down the working rate.
- The printer is always disturbing which hinders delivery of quality work.

Aproved by: Kakai Pauline Irene

## **Recommendation**

- Transport fares should be reconsidered to ease the movements to the field.
- The laptop needs to be seriously serviced or replaced. In addition another laptop should be added to ease the workload
- The printer needs service or replacement because its output isn't the quality expected out.

## **Conclusion**

As PAUTHO staff, we extend our thanks to the Germany team, Special thanks to our funders especially Buch-Aktion for their continued support towards the betterment of vulnerable women in the communities of Bukende Sub-County and Nyondo sub-county at large.

MERRY CHRISTMASS AND A PROSPEROUS NEW YEAR 2025
