

A REPORT FOR THE MONTH OF DECEMBER 2020

Here are a number of activities that were carried out during the month of December 2020

ASSESSMENT OF PROJECTS

We glad to report to you that during this month, we tried our best to reach most of our members in the community and we found out that most of the projects were doing well as it was mentioned by our members and observed on ground as we did the monitoring in different places where our members are.

And it was a very good season for some of our members who were running projects of local brew, yellow bananas and charcoal selling since they were on high demand by many members in and around the community.

We can assure you that the revolving fund we give to these ladies particularly is really doing an impact in their families and the community around them at large.

On this same note, we would like to report to you that most of our members still have a challenge of little capital but we haven't stopped encouraging them that as they keep working hard under our supervision , the loan amount given to them will be increased and basing on this members have developed a motive of hard work.

LOAN RECOVERIES

Most of our members have kept the candle burning more especially the newly formed groups. They are really impressing us compared to KWAYA but this does not stop us from reminding them. Though different members have different challenges amidst them, we try to understand but still encourage them to clear their loans so that they can get more money in form of loans to boost their projects.

LOAN DISBURSMENT

During this month, there are a few groups who had cleared their previous loans and were in position to get new loans from the organization to help them to boost their projects. Some of the staff members too got loans and they are really happy for this.

MEETINGS

We would like to report that we had end of year meeting as the organization and it was held at KWA MOYO, where most of the members attended in person at 90% since they were going to share their savings which they saved throughout the year.

We also thanked the members and encouraged them to keep up the spirit of saving since this is their own money and if given to you once after saving can be used to start something or boost your business.

We still reminded them to form small groups of (5-10) members and register them at the sub-county level for purposes of transparency and easy monitoring of the projects by the group leaders.

Some members didn't agree with the idea of forming small groups claiming that for them they were given the money by Thomas and they are not ready to form groups just because they are lazy and want to hide in individual loans and keep dodging to pay but to us as an organization we stood on our word and encourage them to register their groups because we see it important since we are not finding many challenges with new groups formed and registered that's why we

want to bring this same strategy here in KWAYA to break down it into smaller registered groups too to avoid this system of some members staying with the money for a long period of time not knowing that the money is a revolving fund which has to be repaid and be given to other members.

CONCLUSION

We would like to send our sincere thanks to you our funders in Germany that thank you so very much for the good heart you have shown to us here in Uganda particularly PAUTHO VISION FOR WOMEN EMPOWERMENT (VIWE) UGANDA LTD. More appreciation comes from the women in the community as they are gratefully for your continuous support.

And we also take this opportunity to wish you a very happy and prosperous new year 2021.
