

PAUTHO VISION FOR WOMEN EMPOWERMENT

(VIWE) UGANDA LIMITED

REPORT DECEMBER 2025

INTRODUCTION

This report consists the general of activities that transpired in the month of December, 2025

PROJECT ASSESSMENT AND MONITORING

We were able to meet with many individuals and group members in the communities and found that the projects they are carrying out are making steady progress. They were pleased and expressed their gratitude for the support they have received.

LOAN RECOVERIES

Most repayments were successful. Some were unable to repay on the agreed dates, but we still managed to get the money back within the same month.

LOAN DISBURSMENT

This was paid out to additional Kwa Moyo employees, individuals, and group members in the communities.

SUGGESTIONS

More financial resources are needed to supplement Pautho's budget. Almost all loans were repaid on time. Therefore, everyone would like to receive a higher loan, as the projects are running well and can be expanded. Unfortunately, we do not have sufficient financial resources. As a result, the waiting list is long and some have to wait more than three months before they can obtain a loan.

APPRECIATION

The women in the communities were very happy about your visit in October (Pautho sponsors) and greatly appreciate the support you have given them.

CONCLUSION

We would like to express our deepest gratitude to our dear donors for their enormous and tireless support, which has ensured the sustainability of the organization by achieving the goals set to empower disadvantaged women in the community.
